

## NRG118 Blower (Part No. 64980120)

The blower is secured via three (3) fasteners:

- M5 screws (Water Tube models)
- M5 nuts (Fire Tube models)

For Fire Tube models: *if* the mounting plate is equipped with four (4) studs, do not install a nut to the difficult-to-access stud under the blower motor at the rear – see illustration.
